

# SIEM Essentials SOW Draft

When writing a SoW always use the template at <https://splunk.box.com/s/6rityszely8hroou34c6smn3xhfzfg1j>

Splunk App for Enterprise Security – **SIEM Essentials Offering** – Standard Deployment

Only edit estimated times – **DO NOT edit tasks** – Use the Custom SOW for that

## Statement of Work

### Services

Splunk Professional Services ("PS") will provide the following Services for Customer:

#	Task	Notes	Estimated Days	(INTERNAL) Consultant Skill
<b>Part 1: Kickoff</b>		Consultants: Onboarding Specialist, Enterprise Security Specialist		(Remote)
1.1	Conduct a kick-off call at least two (2) weeks prior to the start of this project.	The kick-off call will cover the following topics: <ul style="list-style-type: none"><li>• SOW</li><li>• Architecture review</li><li>• Data source review</li><li>• Data source access</li><li>• Server access</li><li>• Personnel logistics</li></ul>	-	SKILLI-PS-General
<b>Part 2: Architecture Planning</b>		Consultant: Enterprise Security Specialist		(Remote)
2.1	Plan Splunk Architecture.	Architecture Planning includes: <ul style="list-style-type: none"><li>• Defining data collection strategy</li><li>• Review and document proposed system architecture</li><li>• Review syslog setup and collection method/filters/ports</li><li>• Review and validate network and access control requirements<ul style="list-style-type: none"><li>• Including firewall change request processes</li></ul></li><li>• Discuss Assets and Identities to prepare for collection and onboarding into Enterprise Security</li><li>• Anticipated artifact: Finalized Splunk Architecture</li></ul> <b>Reference Hardware</b> <ul style="list-style-type: none"><li>• <a href="#">Search Head (Ad-hoc) Reference Hardware[1]</a></li><li>• <a href="#">Search Head (Enterprise Security)[2]</a></li><li>• <a href="#">Indexer (Enterprise Security)[3]</a></li></ul>		SKILLI-PS-SecurityEnabled
<b>Part 3: Splunk Installation</b>		Consultant: Onboarding Specialist		(Remote)
3.1	Configure Syslog Architecture.	This configuration task includes: <ul style="list-style-type: none"><li>• Configuration of syslog aggregator (rsyslog/syslog-ng)<ul style="list-style-type: none"><li>• Note if syslog-ng is utilized customer is responsible for installation PS can assist only with tcp input and event routing</li></ul></li><li>• Configuration of syslog inputs/</li><li>• Configure up to four (4) dedicated universal forwarders for syslog forwarding</li></ul>		SKILLI-PS-General
3.2	Configure Splunk Enterprise.	This configuration task includes: <ul style="list-style-type: none"><li>• Splunk server configuration<ul style="list-style-type: none"><li>• Two (2) deployment servers</li><li>• Two (2) search heads</li><li>• One (1) master/ utility server [DMC/ITSI]</li><li>• Three (3) indexers</li></ul></li><li>• Splunk Forwarder Deployment<ul style="list-style-type: none"><li>• Ensure change control process is documented</li><li>• Review deployment strategy</li><li>• Prepare Universal Forwarder packages (Windows &amp; Linux)</li><li>• Configure Server Classes</li></ul></li></ul>		SKILLI-PS-General
<b>Part 4: Data On-Boarding, Enterprise Security, Dashboards, Initial Use Cases</b>		Consultant: Onboarding Specialist		(Remote)

4.1	Data Acquisition, Extraction & Enrichment	<p>This task includes:</p> <ul style="list-style-type: none"> <li>• Technology Add-On (TA) installation for data sources</li> <li>• Configuration for collection of data sources <ul style="list-style-type: none"> <li>• Including access control/index configuration</li> </ul> </li> <li>• Onboard and configure nine (9) essential data sources. <ul style="list-style-type: none"> <li>• Mail</li> <li>• DNS</li> <li>• Authentication</li> <li>• Endpoint Antimalware</li> <li>• Web Proxy Request</li> <li>• User Activity</li> <li>• Audit Trail</li> <li>• Network Communication</li> <li>• Network Intrusion Detection</li> </ul> </li> <li>• Test/Validate TAs</li> </ul>		SKILLI-PS-General
4.2	Validate Data in Splunk	Ensure data in Splunk matches the appropriate Common Information Model[4] standards for data normalisation. This validates Technology Add-Ons (TAs) are functioning correctly.		SKILLI-PS-General (Remote)
4.3	Enterprise Security Installation	<p>This task includes:</p> <ul style="list-style-type: none"> <li>• Installation and tuning of Splunk App for Enterprise Security (ES)</li> </ul>		SKILLI-PS-General (Remote)
4.4	Enterprise Security Dashboards	<p>This task includes:</p> <ul style="list-style-type: none"> <li>• Validate out of the box dashboards</li> <li>• Review dashboards with customer</li> <li>• Review customer requirements in addition to standard dashboards</li> <li>• Disable unneeded dashboards/reports as necessary</li> </ul>		SKILLI-PS-General (Remote)
4.5	Enable and Basic Tuning of Out of the Box Use Cases	<p>This task includes:</p> <ul style="list-style-type: none"> <li>• A review of Out of the Box (OOTB) use cases consistent with nine (9) essential data sources on boarded during Splunk Enterprise configuration</li> <li>• Correlation Searches and Reports <ul style="list-style-type: none"> <li>• Activity from expired user identity correlation search &amp; proactive alert</li> <li>• Brute force access detected correlation search &amp; proactive alert</li> <li>• Brute Force Access Detected over One Day correlation search &amp; proactive alert</li> <li>• Expected Host Not Reporting correlation search &amp; proactive alert</li> <li>• High Number of Hosts Not Updating Malware Signatures correlation search &amp; alert</li> <li>• High Number of Infected Hosts correlation search &amp; proactive alert</li> <li>• High/Critical Priority Host w/Malware Detected correlation search &amp; proactive alert</li> <li>• High/Critical Priority Individual Logging into Infected Machine correlation search &amp; proactive alert</li> <li>• High Volume Traffic from High/Critical Host Observed correlation search &amp; proactive alert</li> <li>• Host Sending Excessive Email correlation search &amp; proactive alert</li> <li>• Host with Recurring Malware Infection correlation search &amp; proactive alert</li> <li>• Host with Multiple Infections correlation search &amp; proactive alert</li> <li>• Host with Old Infection OR Potential Re-Infection correlation search &amp; proactive alert</li> <li>• Outbreak Detected correlation search &amp; proactive alert</li> <li>• Potential Gap in Data correlation search &amp; proactive alert</li> <li>• Threat Activity Detected correlation search &amp; proactive alert</li> <li>• Vulnerability Scanner Detected (by events) correlation search &amp; proactive alert</li> <li>• Vulnerability Scanner Detected (by targets) correlation search &amp; proactive alert</li> </ul> </li> </ul>		SKILLI-PS-General
<b>Part 5: Enterprise Security - Custom Use Cases and Tuning</b>		Consultant: Enterprise Security Specialist		
5.1	Enterprise Security Tuning	<p>This task includes:</p> <ul style="list-style-type: none"> <li>• Core tuning of the Enterprise Security app</li> <li>• Configuration of Assets and Identities</li> </ul>		SKILLI-PS-SecurityEnabled
5.2	Advanced Tuning of Out of the Box Use Cases	<p>As necessary, given time available. This task includes:</p> <ul style="list-style-type: none"> <li>• Tuning correlation rules, searches, and proactive alerts to reduce false positives</li> </ul>		SKILLI-PS-SecurityEnabled
5.3	Configuration of custom dashboards	<p>As necessary, given time available. This task includes:</p> <ul style="list-style-type: none"> <li>• Configuration and deployment of up to four (4) custom views with up to four (4) searches per view</li> <li>• Configure and deploy custom view 1, with up to four (4) searches per view</li> <li>• Configure and deploy custom view 2, with up to four (4) searches per view</li> <li>• Configure and deploy custom view 3, with up to four (4) searches per view</li> <li>• Configure and deploy custom view 4, with up to four (4) searches per view</li> </ul>		SKILLI-PS-SecurityEnabled
5.4	Review and complete installation of Enterprise Security	<p>This task includes:</p> <ul style="list-style-type: none"> <li>• Conducting a walkthrough of ES</li> <li>• Notable Event Alerts</li> <li>• Validate notable events are populating</li> <li>• Demonstrate notable event workflow to customer</li> </ul>	1	SKILLI-PS-General

<b>Part 6: Project Close</b>		Consultant: Enterprise Security Specialist		
6.1	Project Closeout	Activities for this task include <ul style="list-style-type: none"> <li>• Production of an artifact that includes additional use cases discovered throughout the deployment</li> <li>• Recommendations for scaling Splunk</li> <li>• Review of completed SOW tasks with customer</li> <li>• Transition of customer to Splunk Support</li> </ul>		SKILLI-PS-SecurityEnabled
<b>Ongoing</b>		Consultant: Any, as Applicable		
-	Weekly Status Reports	Splunk will provide weekly status reports	-	SKILLI-PS-General
<b>Total</b>			<b>10/13/15w</b>	edit as necessary

#### Assumptions

The above estimates of time for each task are based on certain assumptions:

- Durations are estimated, and work will be performed and delivered on a Time and Materials basis.
- Reasonable network and system access to configure servers, install forwarders, configure source devices, read logs, access data and applications, and allow necessary inter-system communication is all made available to Splunk resources in a timely fashion.
- Customer resources with appropriate knowledge of requirements and resources are available during the requirements phase.
- Customer resources with functional and domain knowledge are available for feedback and consultation during implementation of reporting and searching.
